

Sodium Formate 97% min

Properties:

Density 1.429g/cm³, melting point 253°C soluble in ethanol, nontoxic, noncorrosive, with reducing performance, capable of reacting with

strong oxidizing agent, freely slaked in air.

1. Cas no. : 141-53-7

2. White Granule of crystalline powder

3. 97% min, 95% min, 93% min

Specification:

Value		
Super-Class Product	First-Class Product	Qualified Products
Appearance	White Granule or Crystalline Powder	
Content, %	97.0 min	95.0
NaOH, % ≤	1.00	1.00
Na ₂ CO ₃ , % ≤	1.00	2.50
NaCl, % ≤	1.00	1.50
Na ₂ S, % ≤	0.05	0.06
water, % ≤	0.5	1.0

Uses:

As camouflage acid in leather industry; Applied to catalyst and stable synthetic agent; reducing agent in the printing
